To: Acting Chief, D/E

NOTES FOR YOUR CALL TO JOHN EASTON, JIG, tie line 111, ext. 5403

25X1A9a

1. Redraft of JIG request necessary to keep it from going straight to OIR. Therefore ~~economic~~ aspects brought in with the political.
2. Request should be presented by OSD representative to EDIC as the forum where D/E could best be brought into the picture. *in EDIC chairman*  
*Alternative of presenting request to OIR would delay reply <sup>beyond your deadline</sup> and would not result in emphasis and realism you seek.*
3. At the same time as request is filed with EDIC, OSD should also seek to have drafting group amend the over-all outline of CFEF review to include the points for which the EDIC request is being levied? *This would be consistent with your objective.*
4. Levy can see you for lunch (or after) in Pentagon to present and explain redraft and possibly join you (as suggested in your phone call to him this morning) in seeing Charlie Nichols re this.
